## **CYPRUS AGENCY OF QUALITY ASSURANCE AND ACCREDITATION IN HIGHER EDUCATION (CYQAA) AWARDED WFME RECOGNITION STATUS**

Press Release

26 February 2020

The Cyprus Agency of Quality Assurance and Accreditation in Higher Education (CYQAA) which operates in Cyprus has been awarded Recognition Status by the World Federation for Medical Education ([WFME](#)). WFME Recognition Status has been awarded for ten years with immediate effect.

CYQAA is an independent body and the only authority responsible for national and European policy on quality assurance of higher education in Cyprus. CYQAA's decision making stakeholders are the Ministry of Education and Culture (MOEC), the Education Committee of the Parliament and the Council for the Recognition of Higher Education Qualifications (KYSATS). CYQAA began carrying out accreditation activities in August 2016. Since its establishment, CYQAA carried out 6 Institutional Evaluations and accredited 229 Programmes of study, 6 of which were joint programmes. CYQAA is a member in the following European and international projects:

- European Association for Quality Assurance (ENQA)
- International Network for Quality Assurance and Accreditation Higher Education (INQAAHE)
- European University Association (EUA)
- European Distance and E-Learning Network (EDEN)

CYQAA is also registered with the European Quality Assurance Register (EQAR).

WFME is satisfied that the accreditation process, post-accreditation monitoring and decision making by CYQAA when it accredits these medical schools and faculties is to an appropriate and rigorous standard.

The [WFME Recognition Programme](#) follows the same principles as a medical school accreditation system: evaluation of documentation, policies and procedures; a site visit; and a decision taken by an independent committee with reference to pre-defined criteria.

The WFME Recognition Programme aims to raise the standards of medical education worldwide, through ensuring that national and regional accrediting agencies are acting in an appropriate, robust and transparent way. The intention is for all eligible accrediting agencies to be evaluated by WFME or to an equivalent standard. There are 120 organisations listed in the Directory of Organizations that Recognize/Accredit Medical Schools ([DORA](#)). 21 accrediting agencies have been recognised by WFME to date, and a further 11 have formally commenced the process. A further 10 organisations are in active communication with WFME regarding their application.

1. The World Federation for Medical Education (WFME) is the Non-Governmental Organisation (NGO) in official relation with the World Health Organization representing medical education and medical schools worldwide.
2. WFME was established in 1972. It works in partnership with its six Regional Associations for Medical Education, the World Health Organization, the World Medical Association and other global professional organisations to enhance the quality of medical education through delivery of its work programme, including:
  - Development of standards for medical education
  - Promotion of accreditation of medical schools
  - Management of the *World Directory of Medical Schools*, jointly with FAIMER
 For further information please see [www.wfme.org](http://www.wfme.org).
3. The WFME programme of Recognition of Accrediting Agencies was established following the 2005 WHO-WFME strategic partnership to improve medical education. The programme aims to address the need for a robust and independent system for the evaluation and recognition of accreditation agencies.
