NATIONAL CENTER FOR EDUCATIONAL QUALITY ENHANCEMENT AWARDED WFME RECOGNITION STATUS

Press Release

17 October 2018

The National Center for Educational Quality Enhancement of Georgia ([NCEQE](#)) has been awarded Recognition Status by the World Federation for Medical Education ([WFME](#)). WFME Recognition Status has been awarded for ten years with immediate effect.

National Center for Educational Quality Enhancement is Legal Entity of Public law (LEPL) within the Ministry of Education and Science of Georgia, which was created in 2010 on the basis of the order N89/N of the Ministry of Education and Science of Georgia for the purpose to improve educational quality throughout the country.

The core functions of the NCEQE are: implementing external quality assurance mechanisms of all educational institutions, i.e. higher education institutions, vocational education institutions and general education institutions) operating in the country, on both institutional and programme level; development of the national qualifications framework; recognition of foreign education.

WFME is satisfied that the accreditation process, post-accreditation monitoring and decision making by NCEQE when it accredits these medical schools and faculties is to an appropriate and rigorous standard.

The [WFME Recognition Programme](#) follows the same principles as a medical school accreditation system: evaluation of documentation, policies and procedures; a site visit; and a decision taken by an independent committee with reference to pre-defined criteria.

The WFME Recognition Programme aims to raise the standards of medical education worldwide, through ensuring that national and regional accrediting agencies are acting in an appropriate, robust and transparent way. The intention is for all eligible accrediting agencies to be evaluated by WFME or to an equivalent standard. There are 120 organisations listed in the Directory of Organizations that Recognize/Accredit Medical Schools ([DORA](#)). Thirteen accrediting agencies have been recognised by WFME to date, and a further eight have formally commenced the process. A further 12 organisations are in active communication with WFME regarding their application.

-ENDS-

Notes to editors:

1. The World Federation for Medical Education (WFME) is the Non-State Actor (NSA) in official relation with the World Health Organization representing medical education and medical schools worldwide.
2. WFME was established in 1972. It works in partnership with its six Regional Associations for Medical Education, the World Health Organization, the World Medical Association and other global professional organisations to enhance the quality of medical education through delivery of its work programme, including:

13-A Chemin du Levant, 01210 Ferney-Voltaire, France

www.wfme.org

admin@wfme.org

- Development of standards for medical education
- Promotion of accreditation of medical schools
- Management of the *World Directory of Medical Schools*, jointly with FAIMER

For further information please see www.wfme.org.

3. The WFME programme of Recognition of Accrediting Agencies was established following the 2005 WHO-WFME strategic partnership to improve medical education. The programme aims to address the need for a robust and independent system for the evaluation and recognition of accreditation agencies. Detail about the criteria for eligibility and the policies and procedures of the programme are published on www.wfme.org.
4. The following accrediting agencies have been recognised by WFME:
 - Caribbean Accreditation Authority for Education in Medicine and Other Health Professions (CAAM-HP) (Countries of the Caribbean Community, CARICOM) – recognised until May 2022
