

President: Professor David Gordon FRCP FMedSci

HUNGARIAN ACCREDITATION COMMITTEE (HAC) AWARDED WFME RECOGNITION STATUS

Press Release

7 March 2022

The Hungarian Accreditation Committee (HAC) which operates in Hungary has been awarded Recognition Status by the World Federation for Medical Education ([WFME](#)). WFME Recognition Status has been awarded for ten years with immediate effect.

The Hungarian Accreditation Committee is a national-level, independent body of experts tasked with the external evaluation of the quality of educational and related research activities and the internal quality assurance (QA) systems of higher education institutions in Hungary. It operates within the scope of the Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG).

WFME is satisfied that the accreditation process, post-accreditation monitoring and decision making by AAEP0 when it accredits these medical schools and faculties is to an appropriate and rigorous standard.

The [WFME Recognition Programme](#) follows the same principles as a medical school accreditation system: evaluation of documentation, policies and procedures; a site visit; and a decision taken by an independent committee with reference to pre-defined criteria.

The WFME Recognition Programme aims to raise the standards of medical education worldwide, through ensuring that national and regional accrediting agencies are acting in an appropriate, robust and transparent way. The intention is for all eligible accrediting agencies to be evaluated by WFME or to an equivalent standard. There are about 120 organisations listed in the Directory of Organizations that Recognize/Accredit Medical Schools ([DORA](#)). 27 accrediting agencies have been recognised by WFME to date, and a further 17 have formally commenced the process. A further 17 organisations are in communication with WFME regarding their application.

Notes to editors:

1. The World Federation for Medical Education (WFME) is the Non-Governmental Organisation (NGO) in official relation with the World Health Organization representing medical education and medical schools worldwide.
2. WFME was established in 1972. It works in partnership with its six Regional Associations for Medical Education, the World Health Organization, the World Medical Association and other global professional organisations to enhance the quality of medical education through delivery of its work programme, including:
 - Development of standards for medical education
 - Promotion of accreditation of medical schools
 - Management of the *World Directory of Medical Schools*, jointly with FAIMER

For further information please see www.wfme.org.

3. The WFME programme of Recognition of Accrediting Agencies was established following the 2005 WHO-WFME strategic partnership to improve medical education. The programme aims to address the need for a robust and independent system for the evaluation and recognition of accreditation agencies. Detail about the criteria for eligibility and the policies and procedures of the programme are published on www.wfme.org.
4. The following accrediting agencies have been recognised by WFME:
